

Hi IDEO team,

I want to be a part of IDEO because your work is meaningful and inspiring!

I'm Marina, I grew up in a little town in Russia. Guided by curiosity, desire to explore the world and powered by dedication in achieving goals I made my way to Japan where I live now. I'm always ready for changes and taking on challenges and fears that life and profession bring.

Knowing you for years I draw inspiration and support from listening to IDEOU podcast and reading Change by Design by Tim Brown. And I think this is the best chance to say thank you for sharing such valuable content with the world so designers as me can get inspired and become better at advocating for the user.

I'm applying for the Design Intern position because I see a great opportunity to make an impact, to challenge myself in different ways, and get a chance to grow career- and personal- wise. I believe my experience in solving people's problems through collaborative iterations of prototyping, user testing and visual communication design will help me make impact being a part of IDEO.

Thank you for your time and I'm looking forward to hearing from you.
